

YOUR MISSION BEGINS HERE:

EXHIBITS START ON THIRD FLOOR

INTRODUCTION TO ESPIONAGE

No matter what motives brought you here... leave your preconceptions behind. Learn about the authentic **TRADECRAFT** that has been used throughout time and around the world. Hear spies, in their own words, describe the challenges and the "game" of spying.

COVERS & LEGENDS

A spy must live a life of lies. Adopt a **COVER IDENTITY** and learn why an agent needs one. Proceed directly to the Briefing Film where you'll come face to face with the real world of spying. Spies are motivated for very different reasons—what might motivate you? Patriotism? Money? A compromising situation? Your own ego?

SCHOOL FOR SPIES

What does it take to be a spy? Gather information about innate skills, special training and expertise vital for success. Examine more than 200 spy **GADGETS**, weapons, bugs, cameras, vehicles, and technologies. Learn the stories behind the **SPYCRAFT**. Test your skills of observation, analysis, surveillance, and disguise at interactive stations. Do you have what it takes to be a spy?

THE SECRET HISTORY OF HISTORY

Travel back through the centuries to trace the earliest moments of the second oldest profession. Uncover the stories behind famous men and women, considered above suspicion—and doubly effective as spies. Be surprised by **SPYMASTERS** from Moses to Harriet Tubman, Elizabeth I to George Washington, Cardinal Richelieu to Joseph Stalin; all relied on intelligence to be effective leaders. Track today's technology back to its sources. Learn about the earliest **CODES**—who made and broke them. You know the history. Now you'll know the secret history.

SPIES AMONG US

See the storm clouds gathering as WWII draws near and see the fronts that conceal German and Russian **SPY RINGS** operating right under our noses. Consider the unheeded intelligence that warned of Pearl Harbor. Learn about top-secret code-breaking successes that shortened the war while testing your code-breaking skills. Be amazed by **DECEPTIONS** that made D-Day a success. Learn about keeping the biggest secret of the 20th century—the atom bomb—and how that secret was lost.

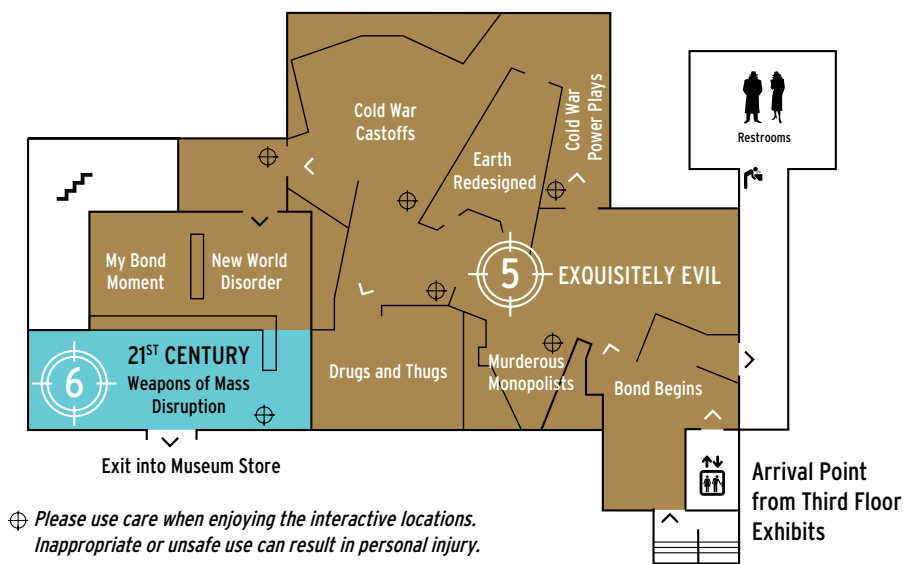

EXQUISITELY EVIL: 50 YEARS OF BOND VILLAINS

Meet Bond's villains, discover their evil schemes, and see their exotic lairs and weapons in this **SPECIAL EXHIBIT** commemorating the 50th anniversary of the Bond films. See over 100 artifacts from the films—including the Sea Vac drill from *TOMORROW NEVER DIES*, Le Chiffre's inhaler from *CASINO ROYALE*, and a nerve gas sphere from *MOONRAKER*—all from the archives of EON Productions, the Bond film producers. Explore how the evildoers and their plots have changed to reflect their times and how James Bond has influenced the public's perception of real espionage.

21ST CENTURY

Confront the contemporary challenges that intelligence faces today, when it is needed more than ever. On your final stop—Weapons of Mass Disruption—hear from some of today's top experts on the new intelligence battlefield of cyberspace. Explore what would happen if a **CYBER ATTACK** hit the electrical grid. See the different ways cyberspace has become a battleground for the military, terrorists and spies, and even James Bond. This gallery includes material from the newest Bond film, 2012's *SKYFALL*, whose brilliant villain Raoul Silva is a cyber-terrorist.
