I am visiting the INTERNATIONAL SPY MUSEUM’s special exhibit, BOND IN MOTION. It is located on the third floor of the Museum.
In this exhibit, I will see 17 vehicles from different James Bond movies. **JAMES BOND** is a fictional spy from England. He uses cool gadgets and vehicles on his missions!

There are a lot of **VIDEOS** in the exhibit, so it can get loud. I can tell a family member or a staff person if I need to leave the area.
As I walk through this exhibit, I will see different vehicles including **CARS, MOTORCYCLES, SUBMARINES, AND MORE!** Each one has a special feature that I will try to find.

I can test my design skills by playing **2 COMPUTER GAMES**:  
1. Design a Stunt  
2. Build a Bond Car
I can pretend to be James Bond by sitting on a **SNOWMOBILE** used in one of the movies. I may have to wait in a line for my turn.

In the back of this exhibit there is a virtual **SHARK TANK**. On the screen a fake shark will swim across and then suddenly hit the screen and try to break through it. It is all pretend – but it can be startling and loud!
When I am ready to **LEAVE THE EXHIBIT**, I will walk out to a hallway that has windows everywhere. It might be bright so I can ask a staff member to show me to a different exit if I want.
